EDUCATION

Degree/Examination	Year	Institution
B.Tech in Computer Science and Engineering (IoT)	2022 - 2026	Netaji Subhas University of Technology
Higher Secondary Education (Class XII)	2020 - 2022	Shaheed Rajpal DAV Public School
Secondary Education (Class X)	2018 - 2020	Shaheed Rajpal DAV Public School

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, SQL

Tools: Git, GitHub, Postman, VS Code

Concepts: DSA, OOP, DBMS, REST APIs, Backend Development, Testing, Debugging

Frameworks/Technologies: React.js, Node.js, Express.js, MongoDB, HTML, CSS, Bootstrap

RELEVANT COURSEWORK

- Data Structures & Algorithms
- Operating Systems
- Network Security
- Web Technology
- Database Management Systems

INTERNSHIP

Web Developer Intern (Certificate)

May 2025 – July 2025

Innate Infotech

- Built a unified MERN-based web platform integrating multiple service modules into a single application.
- Developed RESTful APIs using Node.js and Express.js for frontend-backend communication.
- Created responsive React.js interfaces and reusable UI components across devices.
- Collaborated on feature delivery, debugging, and integration to improve application stability.
- Tested major user flows and fixed frontend/backend issues before deployment.

PROJECTS

EvalForge AI - LLM Evaluation & Feedback Engine 

Mar 2026

- Built a full-stack platform to generate, compare, rank, and improve LLM responses through evaluation pipelines.
- Developed modular frontend-backend workflows for prompt handling, response scoring, ranking, and feedback loops.
- Implemented retrieval-assisted feedback and reusable components for scalable experimentation.
- Debugged API and state-management issues to improve reliability across core product flows.
- Designed reusable frontend and backend modules to support scalable feature expansion across workflows and analytics.

SupportOps Assistant - Internal Support Engineering Platform 

Mar 2026

- Built a full-stack support platform for ticket triage, escalation workflows, and issue history management.
- Developed dashboards and backend APIs to track ticket status, severity patterns, response trends, and metrics.
- Implemented AI-assisted summarization and recurring-issue detection to improve troubleshooting efficiency.
- Improved reliability through debugging, API validation, and end-to-end testing of core workflows.
- Strengthened application reliability by validating API flows, debugging integration issues, and testing user journeys.

StockPilot AI - GenAI-Powered Inventory Dashboard 

July 2025

- Built a full-stack inventory dashboard to visualize stock movement, deadstock trends, and SKU performance.
- Developed Node.js and MongoDB services for scalable inventory tracking and product-level data retrieval.
- Implemented demand forecasting and restock alert workflows for faster inventory decisions.
- Integrated Gemini API to generate personalized product insights through an AI-powered assistant.

ACHIEVEMENTS

- Smart India Hackathon 2024 - Semi-Finalist.
- Top 50 Team Nationwide - StockPilot AI selected among 33,000+ participants.
- Finalist at TOYCATHON 2021, selected among the top 200 teams nationwide.

POSITIONS OF RESPONSIBILITY

Mentor | Desh ke Mentor Program (Government of India)

2022 – 2023

- Mentored 200+ students on academics, careers, and professional growth.
- Conducted 25+ mentoring sessions focused on skill development and goal setting.

Core Team Member | DevComm NSUT

- Organized 4+ coding events and hackathons, engaging 200+ students.
